Are you a plant-lover looking for a one-of-a-kind pot for your new companion? Look no further!

FlorCo creates unique flower pots of varying sizes for everyone in your plant family. Our special designs give your home a personalized look that garners all the ooo's and ahh's from your guests.

Don't keep your favorite plants in boring, plain pots any longer! Let FlorCo bring some extra excitement and personalization to your home.

About

Founded in 2016, FlorCo believes in making your home as unique as you are. To this end, we create and sell handmade flower pots that you won't find anywhere else. Each flower pot's design has a special backstory and is carefully crafted with passion by artists around the United States.

We know how important a good growing environment is for plants, too. Which is why our products are available in differing sizes and with varying weather-resistant capabilities. Our pots all share a secret drainage design that provides you with superior plant draining that simulates being planted in a garden or yard.

Not only that, but we make our passion reality by supporting the environment! We know that without plants and flowers in this world, our products wouldn't be as beloved. So, we make sure that we plant a tree and a flower for every \$25 spent on our site. Together we are making the world a bit greener and sustaining our beautiful plant life for future generations.

Products

Our beautiful products are the perfect way of giving your beloved plants a quality home while sharing your personality with the world. Every design starts as a handmade example that we evaluate for quality appearance, superior plant growth, and match with the rest of our product line. This gives our pots unique backstories that we share with you, along with keeping our offerings relevant.

Best Sellers

While we love all our pots, and we know you guys do, too, there are some that have stood up the best. Here are some of our most popular offerings thanks to their size and character. You'll never go wrong getting one of these!
